LEGISLATIVE COUNSEL'S DIGEST

AB 1330, as amended, Simitian. Outdoor Environmental Education Program.

Existing law contains legislative findings and declarations regarding the need for an educational program that is designed to build attitudes of stewardship toward the maintenance of the quality of our environment and to enable all citizens to use resources wisely.

This bill would establish the Outdoor Environmental Education Program, the purpose of which is to foster stewardship of the environment and an appreciation of the importance of the wise use of natural resources. The bill would require the State Department of Education to administer the program and, according to a priority system to be developed by the department, select applicants for participation in the program, pursuant to prescribed criteria. The bill would require the department to conduct an evaluation of the program and submit a report to the Legislature no later than February 1, 2005. The bill would

provide that the program and its evaluation be implemented only if private funds are made available for purposes of all costs of the program and its evaluation.

This bill would make these provisions inoperative on July 1, 2005, and repeal them on January 1, 2006.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.
